DataBox Allround

14.0" - 15.0"

Notebook and printer in a pilot's case. The practical and elegant solution!

All part of the continued development of the proven DataBox Profile. With many new features! While working with the DataBox the printer and the power supply unit remain completely cabled within the aluminum case. This is our very own „Floor-to-Desk" concept. All you need on the table is enough room for your Notebook. Additionally, the DataBox Allround is lockable and two keys are included in the scope of supply. Data is usually transmitted via printer cable or in a more innovative fashion via "Bluetooth". The truly professional sales person on the road! The DataBox Allround fits all current Notebooks up to 15 inches and for the following mobile printers: HP DJ 450, HP DJ 460, HP Officejet H470, Canon i80/iP90 and iP100 with or without support of the Canon Portable Kit. Other printers upon request!

The best way to mount the printers is with the DICOTA designed "QuickFix" mount (optionally available). Furthermore optionally available: A detachable Koskin outside compartment for documents, a removable Neopren inside pocket from our PerfectSkin or SmartSkin series with which the Notebook can safely be transported without the DataBox Allround as well as a shoulder strap. The rechargeable batteries and the printer are charged via the socket on the case exterior.

Particularly stable case. "Floor-to-Desk" concept. internal cabling. Lockable box, two keys are included in the scope of supply. 220 -240 V voltage through the socket on case exterior. Data transmitted via printer cable or in a more innovative fashion via "BlueTooth". optional features: removable outsidepocket, removable interior pocket as well as holding device for printer "QuickFix" (optionally available).

Art. Nr.: N6628A ()
